SOLUTIONS FOR ALL FITNESS FACILITIES

Creating the Perfect Flooring

Our Expertise:

We use our experience within the fitness industry to deliver a specialist service that puts the customer at the forefront. We consider acoustic needs and vibration reduction and will advise and deliver your optimum flooring solution. Our Performance Flooring range provides looks, performance and conformance.

We have spent 30 years sourcing and fine tuning the best flooring products, fitters and installation processes. We are now working with one of the most innovative and respected rubber flooring industry specialists to bring the best products to our clients.

Our Commitment:

We will continue to work to develop our products to the highest standards, ensuring we stay on top of the changes in quality and ecological standards as well as our clients requirements.

We can supply the EXF Performance Flooring products as a product only sale which allows you to use your own fitters or we will deliver the full project using our years of experience and our industry specialist fitters.

FIND THE RIGHT SOLUTION FOR YOUR FITNESS NEEDS

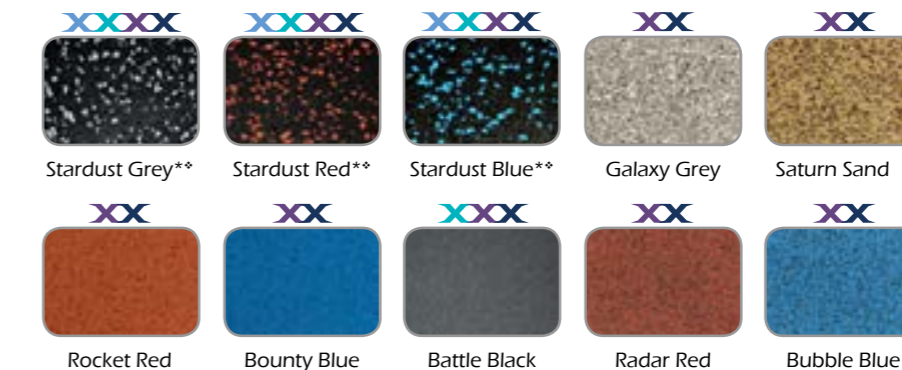

What ever your needs, we will have the solution for your fitness facility. From general purpose use, to use in Olympic weight areas alongside our range of Control underlays, we can help you match any acoustic and vibration compliance requirements.

RANGE	FORMAT	DEPTHS*	SUITABLE AREAS FOR USE	KEY
X Essential	Rubber Roll	8mm		General Uses
X Freedom	Rubber Roll	6, 10, 12mm		Stretch/ Studios Zones
X Function	Rubber Roll & Tiles	16mm		Cardio Areas
X Force	Rubber Roll with Control SD	16mm		Functional Areas
X Max	Rubber Roll with Control HD	26mm		Combat/ Studio Areas
X Power	Rubber Tiles	25, 30, 40, 50, 60mm		Light Weights Areas
X Agility Turf	Artificial Turf Roll	14mm		Moderate Weights Areas
X Control SD*	Underlay	10mm	Ideal for any use.	Heavy Weights Areas
X Control HD*	Underlay	10mm	Ideal for any use where high impact or traffic areas.	Olympic Weights Areas
